Now the children are able to read various books and their reading has improved.

Beatrice Maluza, Head Teacher, Kalira School, Malawi
Welcome

2021 was another extraordinary year. Covid continued to dominate headlines and lives here in the UK and around the world.

The pandemic kept so many classrooms closed – and millions of students, in particular girls, will never return to school.

More families have been pushed into poverty by the pandemic, and the effects of conflict and climate change have driven yet more people from home.

In this difficult landscape, our work creating access to books matters so much. With books, students can begin to catch up. With books, adults can learn new skills and chart a course out of poverty. And with books, families facing war can find the strength to carry on.

So in 2021 we set ourselves a target to once again send more than one million books to communities around the world and to expand our programmes to reach more readers. I am very proud to say that thanks to the hard work of our staff and the generosity of our supporters we exceeded those targets.

Our supporters range from publishers who donate thousands of brand-new books to our cause to book lovers who donate £6 a month as members of our Reverse Book Club – but they all share a belief in the power of books to help create a more equal future for all.

Our former Patron His Royal Highness the Duke of Edinburgh also shared that belief, and we were all deeply saddened by his passing in April 2021. He was a great reader and we honour his memory by remaining committed to the mission that so inspired him: giving everyone the opportunity to read.

2021 was the last year of our Vision 2020 strategy, and it is clear to see how much our charity has grown since the strategy’s launch in 2017. We do more for readers facing barriers to reading and learning, we have a more diverse partner network and we are more innovative.

This Annual Report highlights some of these innovations and introduces you to a few of the readers we reached in 2021. I hope you enjoy reading it, and I thank you for your support.

Lord Paul Boateng
Book Aid International
Vice Patron and former Chair of the Board of Trustees

8 June 2022

What we do

The consequences of not being able to access books can limit potential for a lifetime.

Children struggle to learn to read. Adults and children have fewer chances to develop new skills, discover new interests or read simply for the joy of it. Professionals miss out on the opportunity to study the latest research and push their careers forward.

That is why every year we provide more than one million books to communities around the world where people would otherwise have few books, or no books at all.

Publishers donate books to us for free – everything from children’s picture books to law and medical texts. We then provide these books to our network of 150 partners who make them available to readers in thousands of schools, libraries, universities, hospitals, prisons and refugee camps around the world.

We also work with our partners to establish and refurbish libraries, train teachers and librarians, promote reading and fund the purchase of locally published books.

In all the places we work, our partners tell us which books people need most, and we provide a carefully chosen selection of titles in response to their requests. In 2021, we focused in particular on supporting schools affected by the pandemic, people displaced by conflicts and climate disasters and medical students and professionals who struggle to access the latest books.

Our vision is a world where everyone has access to books that will enrich, improve and change their lives.

Our mission is to provide books, resources and training to support an environment in which reading for pleasure, study and lifelong learning can flourish.

We manage 28 schools across Liberia, and the books donated by Book Aid International are very important.

Covid’s impacts on our operations

Operations were disrupted by Covid throughout the year, and our Covid protocols meant that we were unable to welcome volunteers. Instead, we employed two new staff to ensure we could provide the books our partners needed.

While demand for books remained very high, our partners were facing their own challenges related to the pandemic. This meant we sometimes needed to adjust the timings of shipments or the number of books sent. Covid-related driver shortages also meant that our operations team faced challenges securing transport for book shipments.

In spite of all these issues we exceeded our goal of providing more than one million books worldwide.

Covid’s impacts on our projects

In many of the communities where we work the effects of Covid showed few signs of diminishing. In Uganda, for example, schools remained closed for much of the year. In total their doors were shut to pupils for 83 weeks – the longest shutdown in the world. Our projects were affected as a result.

Kenya, Somaliland, Zambia and Zimbabwe also experienced Covid-related school closures, and many of our other partners faced Covid restrictions which meant that they needed to adjust project implementation schedules. As a result, our Study Hub, Children’s Corners, Reading for All, Inspiring Readers, Books to Go, I Choose Reading and Libraries for Learning programmes were all delayed.

Travel remained challenging, so we delivered our programme training online and via the ‘train the trainer’ approach we developed in 2020.

Despite all of these challenges, we were able to complete the majority of our planned projects in 2021 – although many were on adjusted timelines. The success of our remote training methods mean that they will remain part of our work even after the pandemic, helping us to reach more people in more communities.

Covid’s impacts on our fundraising

Throughout the year, despite an uncertain outlook here in the UK, support for our charity remained as strong as ever and our total income increased. Thousands of people donated to us either through our Reverse Book Club or with one-off gifts. 827 supporters started new regular gifts in 2021 – an extraordinary contribution at such a challenging time.

Covid-related school closures forced us to adapt programme schedules and made gathering data more challenging in 2021. This meant that we were not always able to meet report and programme delivery schedules agreed with donors.

However, our corporate and trust funders showed patience and flexibility, allowing us to amend our reporting schedules to accommodate Covid-related delays. We would like to warmly thank them for their support in 2021.

As the pandemic continued into its second year we built on lessons learned in 2020 to reach out to readers around the world.

In 2021 the effects of Covid continued to create challenges – delaying shipments and projects and creating a climate of uncertainty. And yet, with the support of our donors and publishing partners, we were able to deliver the majority of our planned programmes and provide more than one million books once again.

In 2021 the effects of Covid continued to create challenges – delaying shipments and projects and creating a climate of uncertainty. 2021 in numbers

In 2021, we worked with 150 partners, providing 1,007,449 books worldwide and giving an estimated 19.3 million people the opportunity to read.

Our impact: books to enrich education

In 2021, school closures during the pandemic left millions of children behind – so the need for books to help pupils catch up was greater than ever.

World Bank research in 2021 found that the number of 10-year-olds unable to read a simple book could soon rise as high as 70% in some low and middle income countries. Good-quality books in schools could help these children receive the education they deserve, but in the communities where we work well-stocked school libraries are rare. Many schools have no library at all.

So last year we provided brand-new, carefully selected books to school libraries and worked with our partners to establish new reading spaces in schools. The books we provided ranged from story books to support young readers right through to advanced non-fiction for secondary school pupils preparing for exams.

Supporting education partners

In 2021, we provided books to 47 partners who have education at the heart of their missions. These included the Tamer Institute of Community Education in the Occupied Palestinian Territories, Ibba Girls School in South Sudan and VSO’s education projects in Ethiopia, Malawi, Rwanda, South Sudan, Uganda, Zambia and Zimbabwe. These partners run programmes ranging from large-scale teacher training to projects that help the youngest pupils develop a love of reading – and the books we supply are a vital contribution to their work.

We also provided books to a number of organisations that focus on education for the most vulnerable children, both in and out of school. These partners include Street Child in Cameroon, Rwanda, Sierra Leone and Liberia, The Street Child Empowerment Foundation in Ghana and Salve International and Inspire Lives Africa in Uganda.

Lighting the way to learning in rural Malawi

In many rural communities, few families have access to electricity. This means that for children – especially girls – daylight hours after school are taken up with chores, leaving little time for reading and learning.

In 2021, we worked with SolarAid to launch the Solar Libraries project, providing 8,984 books to 20 schools to create lending libraries stocked with books and solar lights. The programme allowed 17,964 students to continue reading after dark.

“The coming of new books has boosted learners’ confidence in reading and they truly enjoy reading. As a librarian I am able to give them appropriate books for their current reading level: not too difficult but challenging enough to encourage growth,” said Kondwani Malisawa, Librarian, Chinkhumbe Primary School, Malawi.

Establishing new school libraries

In addition to providing books to schools, we also ran a number of projects that established new school libraries in 2021.

In total these programmes established 133 new school libraries, provided more than 160,000 books to schools, trained 516 teachers in how to use books to enrich classroom learning and upskilled 19 local trainers. These trainers now have the skills to support local teachers in the years ahead.

Some of our programmes establish permanent school libraries. Through our Inspiring Readers programme, for example, we set up new libraries in 82 schools across Uganda, Sierra Leone, Zimbabwe and Kenya, benefiting 49,842 pupils.

Other programmes establish small ‘book box’ libraries in schools or less formal school reading spaces.

Our Reading Around the Reserve programme in Malawi established reading spaces in 71 schools, while our Discovery Book Box programme established eight ‘school libraries in a box’ in Cameroon, Ghana, The Gambia, Malawi, Kenya, Zimbabwe and Uganda, directly benefiting 5,715 pupils.

In 2021, we also increased the grants we provided to partners to buy locally published books to £110,840, funding the purchase of 45,190 books.

Before the donation from Book Aid International, we didn’t have any books to offer our pupils.

Florence Ayamga, Head Teacher, Gowrie Primary School, Ghana

New possibilities in Sierra Leone

Many of the schools where we work have room for a library but don’t have the funds or books to create a reading space.

Through our Explorer Libraries programme, we provide the books, funds and training to transform unused spaces into thriving school libraries.

In 2021, we set up 11 Explorer Libraries including one in the Namya Islamic Primary School in Sierra Leone.

“The new books have changed children’s perceptions. They are motivated to read and forge ahead with their education.”

Strategic Report

Book Aid International 2021 Trustees’ Annual Report
Celebrating community reading

In 2021 we launched the Community Reading Award project, which offered grants of £1,400 to launch innovative projects and inspire more people to read in the community. Winners included:

- The I am a Story Champ project, which will involve 400 vulnerable children in new community reading centres and through a reading competition in Uganda
- The Love Through Books project, which will establish a library in the Africa Hope Centre Orphanage in Nairobi
- The Ekon Community Literacy Project, which will set up a community library in the fishing community of Ekon, Ghana

AfLIA (The African Library and Information Associations and Institutions) helped to select the winners, and they commented on how this new programme supports African libraries:

“AfLIA is enthused with this Community Reading Award that encourages African libraries to think innovatively about how to reach and provide information and literacy services that are not just within the four walls of the library.”

Dr Helena Asamoah-Hassan, AfLIA Executive Director

Our impact: books in communities

In far too many places, books remain a luxury – out of reach for huge numbers of people.

Public and community libraries often offer the only chance for people to read, but many lack the funds to buy new books. Community libraries, in particular, are often run by volunteers with very few resources.

In 2021 we provided brand-new books of all types to 270 public libraries and 535 community libraries. They ranged from networks of libraries spanning entire countries to small community libraries that serve a single village. Many have outreach programmes and mobile libraries that also benefited from the books we provided.

Working with partners to promote reading

In addition to providing books, we also work with our partners to raise awareness of the importance of libraries and reading. In 2021, we provided books to partners who specifically focus on promoting reading in The Gambia, Ghana, Lebanon, Palestine and Somaliland. These books are a vital resource for these partners, helping them encourage reading in their communities.

We also expanded our Reading Promotion programme in 2021, supporting 12 partners to run a total of 12 events which promoted the value of books, raising the profile of local libraries and encouraging people to read.

A new container library for Zanzibar

Our Community Container Library programme transforms shipping containers into thriving libraries. We provide the funds to refurbish each shipping container, along with a collection of books chosen for the local community, a grant to buy locally published books and training for librarians. The libraries are then run by our local partner.

Working with Zanzibar Library Service, we began building our second container library in Southern Zanzibar in May 2021. Located in Dunga, a town of 76,000 people that previously had no library, it has already become a community hub stocked with 5,000 UK-donated books and 1,192 locally purchased books.

“Nowadays, learners are able to spend time in the library and escape other negative activities happening in the community. Adults regard the library as a safe space for their children. With this library, female students in these rural areas are developing their knowledge through reading.”

Nuru Khatib Mirat, Librarian, Dunga Community Container Library

Inspiring reading at school and home

In 2021, we expanded our Books to Go programme, which establishes lending libraries in schools and trains teachers in how to encourage children to read both in school and at home with families.

In 2021, we established 20 Books to Go libraries in 20 primary schools across Kenya, Ghana, Sierra Leone and Zanzibar – and whole families are feeling the benefit.

“My children came home and told me they have a library in the school. I came to the school to confirm whether it was true and, when I did, I was able to borrow three books. I dropped out in class eight, so reading right now is my only hope to ensure that I gain knowledge and also motivate my children to read.”

Simon Kimutai, parent, Wevo Primary School, Kenya
Our impact: books during crisis

In 2021, the number of people around the world forced to flee their homes rose to more than 82 million.

The impact of a crisis on education and learning can be devastating, with millions of people robbed of the chance to read. In 2021 we worked with partners worldwide to create the opportunity for people who have been displaced or who live in communities where conflict is an everyday reality to access books.

Supporting refugees

Kakuma Refugee Camp in Kenya is one of the world’s largest refugee camps. It is home to 196,666 people and, in 2021, we worked to enrich education across the camp. Through our Reading for All programme we provided 12,000 brand-new books to eight primary schools in the camp and equipped five secondary schools with study books.

Elsewhere, we also reached many thousands more refugees by providing books to Shire Refugee Camp Library in Ethiopia, to Dadaab refugee settlement in Kenya, to Bidi Bidi, Navikale and Kyaka II refugee settlements in Uganda, to the Nyarugusu refugee camp in Tanzania and to 23 refugee camps across Greece. In total, we provided 56,721 books to refugees around the world.

“I love reading. Especially, I love reading history. To be a lawyer

Justin, refugee, Kakuma Refugee Camp, Kenya

Reaching people living with conflict

In 2021 we provided books to eight countries where people live with the daily impact of ongoing conflicts: Cameroon, Ethiopia, Iraq, Palestine, Somalia, Somaliland, South Sudan and Syria. Books in these communities provide a lifeline, enabling people in some of the world’s most marginalised communities to study, learn and escape into books.

One of our new partners in 2021 was Yezidi Emergency Support (YES), a local organisation that supports the minority Yezidi community in Iraq. Yezidis were brutally targeted by ISIS in 2014 and, last year, we provided 1,208 books to support five reading spaces designed to support Yezidi children.

“Every day, queues of children all dressed in their best clothes wait at the door and plead to be allowed to come to our child-friendly reading space.”

Anna Norona, Yezidi Emergency Support, Iraq

Our impact: books for professionals

In many of the countries we work in, professionals and higher education students face multiple barriers to accessing up to date information.

Libraries often lack the funds to buy books for higher-education students, and practising professionals are also unable to purchase the up to date books that they need. Unreliable internet and electricity mean that digital information is often out of reach as well.

In response, in 2021 we provided 79,115 higher education books, law and teacher training books and 89,069 medical books across the world to support higher-education students and practising professionals in a variety of fields. Our partners included the Hawassa University in Ethiopia, AMREF Health Africa in Kenya, the University of Liberia and the College of Medicine at the University of Malawi.

Supporting healthcare providers

We provided a wide range of brand-new medical books to universities, colleges, hospitals and clinics around the world, reaching trainee doctors and nurses and helping professionals to keep building their skills.

One of the medical training facilities we supported in 2021 was the Edna Adan Maternity Hospital in Somaliland. We provided 1,167 books to give the next generation of midwives access to the information they need to offer the best possible support to every mother and baby in their care.

"Without books, we cannot develop. Without books, we cannot get trained. Without books, we cannot get out of the situation that we are in. In Somaliland, there’s no bookshop I can walk to and just buy books from, and there’s nobody like Book Aid International. When I first opened the hospital, the first gift of books were received from Book Aid International.”

Edna Adan Ismail, Director and Founder, Edna Adan Maternity Hospital

Reaching universities

A lack of books puts students’ education and future success in jeopardy so last year we provided higher-education books to universities in 12 countries. They covered topics ranging from history to the social sciences to law.

Our focus is on universities where students face the greatest barriers to reading and learning. Last year that included working with the University of Mosul to restore its library, which was deliberately destroyed by IS in 2014. In 2021, the library reopened, and we were pleased to support students with a donation of 10,295 books.

“I have always believed that libraries are lighthouses of knowledge – providing a beacon for those who value learning... Now our lighthouse is once again burning bright. Libraries can only thrive when they are full of inspiring, wonderful books – and I join the university community in thanking Book Aid International for its support.”

Dr Alaa Hamdon, University of Mosul Lecturer and Founder, Mosul Book Bridge
Meeting our strategic goals

2021 marks the end of our Vision 2020 strategy, and our charity has grown and changed significantly since the strategy was launched in 2017.

Our Vision 2020: Where Books Change Lives strategy was due to guide our work until 2020. In light of the pandemic, we extended the strategy for one more year.

Five key objectives shaped our work during the strategic period and, in meeting them, we have grown our partner network, increased our focus on reaching people with the least access to books and developed new ways to support education.

Our performance against our five key objectives is outlined here.

**Objective one: Increase the number of books we send every year to 1.5m**

Between 2016 and 2018, the number of books we provided grew annually, and in 2018, we sent 1,286,538 books around the world.

Since 2020, our ability to send books has been reduced due to the pandemic, so we have not been able to reach the initial targets we set ourselves.

However, we provided more than one million books in 2021 and, looking to the future, we still hope to achieve our 1.5 million book target.

1.28m books sent in 2018

A shipment of books leaving our London warehouse

**Objective two: Donate an estimated 35% of books specifically to five priority beneficiary groups**

Our focus for this strategy has been on reaching people who have been displaced or who live in fragile states, pupils in poorly resourced schools, learners in the community, healthcare providers and educators and excluded or disadvantaged groups and individuals.

We have made significant progress in meeting this goal. In 2016 we were working with 42 partners which supported these priority groups and provided them with a total of 151,164 books. In 2021, those numbers rose to 119 partners and 609,096 books.

59.8% of books donated to priority groups in 2021

Books being unloaded in Syria

**Objective three: Continue our work to encourage children’s reading by establishing more than 150 Children’s Corners in public and community libraries**

In 2021, we opened two new Children’s Corners – one at Siiilanyo National Library in Somaliland and one at the Accra Central Library in Ghana. These bring us to a total of 150 Children’s Corners established since 2016.

150 Children’s Corners opened

A child enjoying reading in the Siiilanyo National Library Children’s Corner in Somaliland

**Objective four: Support more than 250,000 school pupils with reading resources through Inspiring Readers, our schools outreach programme**

We were pleased to have exceeded this target. We have now reached 290,883 children through Inspiring Readers across seven African countries.

Through this programme, we have also trained 113 librarians and 880 teachers, provided 372,473 books across 53 libraries and 297 schools, and funded the purchase of more than 50,000 locally published books.

290,883 pupils reached

A student in Bulawayo, Zimbabwe, reads a donated book thanks to Inspiring Readers. © KB Mpofu/Book Aid International

**Objective five: Advocate for the value of reading and be able to demonstrate that we have helped to support and develop a culture of reading**

Our Reading Promotion campaign now spans 12 countries across Africa, compared with five in 2016. Through the campaign, our library partners run events to engage children and partners with reading.

We have also built partnerships with NGOs that exist to promote reading, most recently in Bhutan, The Gambia, Ghana, Lebanon, Palestine and Somaliland.

12 countries involved in Reading Promotion

Meet our supporters

We are only able to give millions of people the opportunity to read because we are supported by thousands of people in the UK. Some give £6 a month, others make multi-year grants. But they all contribute to a world where everyone has access to books.

“Books brought me so much joy.

We are incredibly grateful to our community of individual donors and the members of our Reverse Book Club who recognise the transformational power of books and want to share that with others.

“Books brought me so much joy when I was a child. I know that they can bring a valuable escape in difficult situations and be incredibly empowering, especially for women.”

Carol Whitworth, donor, Book Aid International

“Books and libraries have such a vital role to play.

Authors, celebrities and influencers are an essential part of our efforts to raise awareness of our work and of the need for books around the world. They represent us at high-profile events, help us spread the word online and are vital to our press coverage every year. We cannot thank them enough for their support.

“Books and libraries have such a vital role to play after conflict, and it has been my privilege to be a part of the Siilaanyo National Library’s story. I have seen how brand-new books provided by Book Aid International have helped to develop the Siilaanyo National Library into what it is today, and so I’m delighted to be a part of this Book Aid International event at the Hay Festival.”

Rageh Omaar, journalist, author and broadcaster

“Our Trustees are very proud of their long partnership with Book Aid International.

Trust and foundation support is vital in helping us deliver so many of our projects and we are very grateful to both our long-standing supporters and those who are new to us.

“The Bernard Sunley Foundation has supported Book Aid International for over 30 years and has particularly focused on helping to fund Children’s Corners in libraries across Africa. Our Trustees are very proud of their long partnership with Book Aid International that has improved the quality of life – through books and a love of reading – for many thousands of children.”

Sue Davies, Director, Bernard Sunley Foundation

“Blackwell’s is a supporter of Book Aid International because we believe that books are powerful.

Working with corporate supporters whose values align with ours allows us to ensure more people benefit from the power of books. We are very grateful to organisations which choose to support us in this way.

“Blackwell’s is a strong supporter of Book Aid International because, like them, we believe that books are powerful. We are thrilled to be in a partnership where our values are so closely aligned.”

Kate Stillborn, Operations and Customer Service Director, Blackwell’s

Book Aid International’s mission clearly aligns with Postcode Education Trust’s vision.

People’s Postcode Lottery has stood beside us since 2015 – offering funds, advice and connections with charities with whom we can collaborate. Their funding comes from the many thousands who play the lottery every month – and to them we offer our heartfelt thanks.

“Players of People’s Postcode Lottery have raised over £3 million for Book Aid International since 2018. Their mission clearly aligns with Postcode Education Trust’s vision for all children to have access to an inclusive and quality education whilst promoting sustainable and lifelong learning opportunities.”

Laura Chow, Head of Charities, People’s Postcode Lottery

We are indeed very lucky.

While in 2021 our warehouse remained closed to volunteers in line with Covid restrictions, we welcomed remote volunteers who donated 118 hours supporting our communications and fundraising teams. Their work freed up staff time to deliver essential services, and gave volunteers a sense of connection to readers around the world.

“While I was transcribing interviews as a Book Aid International volunteer, I was struck by the joy the children experience when receiving something as simple as a colourful story book. My two young boys have shelves full of them but to a child in Uganda they’re a game changer, a chance to take pride in learning and a window into something magical. We are indeed very lucky.”

Chris Buck, volunteer, Lexis Nexis

“Books and libraries have such a vital role to play.

Authors, celebrities and influencers are an essential part of our efforts to raise awareness of our work and of the need for books around the world. They represent us at high-profile events, help us spread the word online and are vital to our press coverage every year. We cannot thank them enough for their support.

“Books and libraries have such a vital role to play after conflict, and it has been my privilege to be a part of the Sillaano National Library’s story. I have seen how brand-new books provided by Book Aid International have helped to develop the Sillaano National Library into what it is today, and so I’m delighted to be a part of this Book Aid International event at the Hay Festival.”

Rageh Omaar, journalist, author and broadcaster
Our book donors

The support of the publishing industry is critical to our work. All of the books that we send from the UK are donated to us brand-new and free of charge, and 99.2% of those books are donated by publishers.

The brand-new books that we receive are highly valued by our partners and by readers, and the generosity of our book donors in the UK gives millions of people around the world the opportunity to read.

Our publisher partners

Last year, 106 publishers donated 889,644 books to our charity.

We are supported by many of the world’s leading publishers, some of which donated more than 100,000 books to us last year. We also receive books from a range of independent publishers who donate a smaller number of books but still have a huge impact on readers worldwide.

Publishers donate a wide variety of books to us – from picture books for the youngest readers right through to advanced law and medical texts. This generosity allows us to support readers of every age and from every walk of life.

“Donating to Book Aid International is an important part of our CSR programme and we are proud to support them. We know that when we send them books they will have a direct and positive impact on children and adults who need them most around the world.”

Sarah McPhee, Head of Corporate Social Responsibility and Events, HarperCollins

The value of the books we receive

In 2021, the books that publishers donated to us were worth £10,013,273. This is less than 2020 and 2019 when we received large numbers of high-value medical and law texts.

Running average £13

We value our books based on Nielsen Bookscan prices and we apply an overall 30% discount from the full Recommended Retail Price to allow for the estimated market discount for third-party commercial buyers.

Because publishers donate books to us free of charge, it costs just £2 to receive, store, select and send a book worth an average of £13. That average is calculated using the value of the books we have sent over the past five years as shown in the table below.

Connecting with publishers

We maintain strong relationships with the International Publishers Association (IPA) and the Publishers Association to ensure that we stay involved in industry conversations and understand publishers’ concerns and priorities.

International book fairs provide an invaluable opportunity to stay connected to our friends in the book trade. This year we were delighted to be invited to take part in a panel at the Sharjah International Book Fair Publishers’ conference.

We also held our own seminar at the London Book Fair. We were joined by Sarah Odedina, editor-at-large at Pushkin Children’s Books, Pam Dix, Chair of IBBY UK, and Sita Brahmachari, award-winning writer, to discuss why access to children’s books is part of creating a fairer future for millions. The panel was chaired by Bodour Al Qasimi, President of The IPA, who commented on the event:

“Access to a choice of relevant, good quality books can make all the difference to a child’s life and prospects, which is why it is a priority issue for the IPA. It was very interesting to hear about the work being done by our panelists to address book access inequities, and to share the IPA’s experiences around the initiatives it is leading in this field, in particular in developing countries.”

Bodour Al Qasimi, President, IPA; Founder and CEO, Kalimat Group; Founder, Emirates Publishers Association

We also regularly secure coverage of our work in the BookSeller, BookBrunch and Publishing Perspectives which raises awareness of the need for and value of books. Last year these publications covered our work 15 times.

Financial support from book donors

Some publishers donate funds to us as well as books. In 2021, publishing partners gave £20,263 to create an Explorer Library in Kenya, send books to refugees in South Sudan and the Occupied Palestinian Territories and to support some of the world’s most vulnerable readers.

We were also delighted to receive a grant of £27,533 from The Africa Publishing Innovation Fund (APIF), which is a trust developed through a collaboration between the IPA and Dubai Cares.

This enabled us to establish a Community Container Library in the town of Dunga in Zanzibar, giving the city’s 76,000 residents local access to books for the first time.

“Access to a choice of relevant, good quality books can make all the difference to a child’s life and prospects.

Bodour Al Qasimi, President, International Publishers Association

We know that when we send Book Aid International books they will have a direct and positive impact on children and adults who need them most around the world.”

Sarah McPhee, Head of Corporate Social Responsibility and Events, HarperCollins

“
Financial overview 2021

At Book Aid International all of our income is voluntary – we receive no government grants.

Total income
In 2021 our total income was £12,567,896, of which £2,554,623 was cash and £10,013,273 was the value of books donated to us by UK publishers. 2021’s cash income was £2,554,623. This was a significant increase of £597,272 from 2020’s income of £1,957,351.

Of cash income in 2021, £1,489,090 was unrestricted income when compared to £1,194,063 in 2020. This funded our work providing books around the world.

This increase in unrestricted income was primarily a result of continued growth and investment in our individual giving programme which performed strongly despite the pandemic.

There was also an increase in unrestricted income from trusts, major donors and legators. However, community fundraising continued to feel the effects of Covid restrictions and income from this stream was lower than we have seen in previous years.

We received restricted income of £1,065,533 in 2021 compared to £763,287 in 2020.

This income was used to support project activity working with our partners around the world to train teachers and librarians, establish school libraries and support public and community libraries.

This significant increase is because of a substantial rise in trust funding for the year, some of which was a one-off. Restricted income from major donors and corporate supporters remained steady.

We continued to invest in fundraising, particularly in the area of new donor acquisition, to ensure the future sustainability of the organisation.

The relatively large increase also results from lower expenditure in 2020, when our activities were affected by UK and international Covid restrictions.

Total expenditure
Our total expenditure was £15,587,726, of which £2,308,575 was cash expenditure and £13,279,151 was the value of the books we provided around the world.

2021’s cash expenditure of £2,308,575 was substantially higher than the 2020 figure of £1,902,852.

The majority of this additional expenditure was a result of increased project spending and an expanded programme as a result of the additional trust income received in the year.

We ended 2021 with £571,106 in free reserves, higher than anticipated as a result of better than anticipated funding results in 2021. For more information on our finances, including our full audited accounts, see pages 36 to 57.

We continued to invest in fundraising, particularly in the area of new donor acquisition, to ensure the future sustainability of the organisation.

The relatively large increase also results from lower expenditure in 2020, when our activities were affected by UK and international Covid restrictions.

Maintaining reserves
We maintain sufficient unrestricted cash reserves to ensure that we can deliver our planned commitments in the event of unforeseen financial challenges. The minimum level of reserves we must hold is agreed by our Board of Trustees and monitored regularly.

In 2021, the minimum level was confirmed at a range between £500,000 and £550,000.
The future

In 2021 the global pandemic continued to impact millions of children in their learning, push more people into poverty and further erode progress towards the 2030 Sustainable Development Goals.

Global displacement through conflict and climate change reached new levels, with more than 80 million people displaced from their homes by the end of the year.

For people living in these very challenging situations access to books and education became even less attainable in 2021. Yet the need for books in people’s lives has never been greater.

At Book Aid International we know books give people power. A book offers information, inspiration, hope, joy. And so much more. We are committed to sharing the power of books with even more people in the years to come because we know that books help build a more equal world.

The work we have done to date, the partnerships we have developed and the support we have generated will be the foundation for everything we will do in the years ahead.

In 2022 we launch our new strategy for 2022 to 2025: The Power of Books. It is based on four key goals: equity, engagement, partnership and advocacy.

To ensure equity of access to books we will focus our work on the places with fewest resources, and on the most marginalised communities. To get people engaged with reading we will support school, public and community libraries, and anywhere where people can access books and read. And we will take every opportunity to advocate for the power of books to improve and change lives.

To do all this we will call on the support of publishers and donors, the skills and determination of our partners and the encouragement of our many friends who believe, as we do, in the power of books.

Thank you for helping us work towards our vision of a world where everyone has access to books. I do hope you will continue to support us in the years ahead.

Alison Tweed
Chief Executive, Book Aid International

In addition to all those named above, we would like to thank all of those who supported us anonymously in 2021.
Our fundraising

In 2021 we raised £2,537,342 against an original budget of £2,025,914.

Income shortfalls in community giving were more than made up by increased Trust and Individual Giving income, including an additional award from players of People’s Postcode Lottery of £425,000.

Our standards

We are committed to maintaining the highest standards in our fundraising in line with our Supporter Promise, which is displayed in the footer of every page on our website: bookaid.org. In 2021, we remained registered with the Information Commissioner’s Office and the Fundraising Regulator.

We adhere to the standards of both organisations and respond to changes in the regulatory framework. We also maintained our Treating Donors Fairly policy which identifies groups of individuals who may be vulnerable and defines our approach to treating these individuals with respect and care.

We continue to place our donors at the centre of our fundraising, offering flexibility in how they hear from us in line with GDPR regulations.

Fundraising feedback

In 2021 we did not receive any complaints about our fundraising activities. Seven donors unsubscribed from our communications through the Fundraising Preference Service.

Investing in the future

In 2021, donor acquisition activities took place largely through unaddressed media inserts in publications. Complete return on investment through these campaigns does not occur in the year of the activity, but is based on taking a longer-term view of the lifetime value of each new donor, many of whom continue their support for years.

Commercial partners and fundraising agencies

The commercial participators with which we exchanged supporter data included print management (DMP), email marketing (MailChimp), payment processing (including Access Paysuite, WooCommerce, PayPal, Stripe, JustGiving and Virgin Money Giving), database software (Blackbaud), Gift Aid claims (HRMC) and IT support (Wanstor).

Each of these organisations has a privacy policy, which is available on its website, and we maintain a data processing agreement with each, as required by GDPR regulations.

Fundraising feedback

In 2021 we did not receive any complaints about our fundraising activities. Seven donors unsubscribed from our communications through the Fundraising Preference Service.

Investing in the future

In 2021, donor acquisition activities took place largely through unaddressed media inserts in publications. Complete return on investment through these campaigns does not occur in the year of the activity, but is based on taking a longer-term view of the lifetime value of each new donor, many of whom continue their support for years.

Managing our finances

We are committed to outstanding financial management that safeguards the money we receive and ensures that our organisation is sustainable in the long term. By providing full details of all our financial management, how we comply with all relevant regulations and how we manage our funds, we aim to ensure that we earn the trust placed in us by our partners, beneficiaries and supporters.

Staff and staffing costs

In 2021, we employed an average of 31 (27.6 FTE) staff based in Camberwell who are divided into five teams: Operations, Fundraising, Communications, Programmes and Finance. The numbers include two staff members in Nairobi, Kenya, who are part of our Programmes team. This table details our salary costs:

Reserves policy and actuals

Our Board meets annually to consider the resources that will be required to meet our long-term objectives and fulfil our commitments. The Board also considers the risks we face and sets a minimum free reserves policy at a level it believes would sustain our work while we recovered from any future shortfalls in income or unforeseen expenditure. The reserves have been set to ensure we have the time to adjust to a serious issue or a drop in funding and are more than required for the management of a closure.

Reserves policy and actuals

Our Board meets annually to consider the resources that will be required to meet our long-term objectives and fulfil our commitments. The Board also considers the risks we face and sets a minimum free reserves policy at a level it believes would sustain our work while we recovered from any future shortfalls in income or unforeseen expenditure. The reserves have been set to ensure we have the time to adjust to a serious issue or a drop in funding and are more than required for the management of a closure.

Donations in kind

In 2021 99.2% (2020 – 99.9%) of the books we received were donated as Gifts In Kind by the UK publishing industry. The following table expresses the value of the books we received, retained and supplied in 2021 compared with preceding years:

Pension liability

We are part of The Pensions Trust scheme, a multi-employer scheme that provides benefits to some 638 non-associated participating employers. The scheme is a defined-benefit scheme subject to the funding legislation outlined in the Pensions Act 2004 which came into force on 30th December 2005. The provision in respect of the deficit repayment plan is £45,786 (2020: £23,459) and this has been recognised in the accounts as required by FRS 102. Please see note 16 on page 50 for more detail.

Ongoing impact of Covid

In response to the Covid pandemic and its ongoing impact, the Finance and Audit Committee (FAC) conducted an exercise to arrive at an opinion on the financial impact and how we manage our funds, we aim to ensure that we earn the trust placed in us by our partners, beneficiaries and supporters.

Donations in kind

Reserves policy and actuals

Our Board meets annually to consider the resources that will be required to meet our long-term objectives and fulfil our commitments. The Board also considers the risks we face and sets a minimum free reserves policy at a level it believes would sustain our work while we recovered from any future shortfalls in income or unforeseen expenditure. The reserves have been set to ensure we have the time to adjust to a serious issue or a drop in funding and are more than required for the management of a closure.

Ongoing impact of Covid

In response to the Covid pandemic and its ongoing impact, the Finance and Audit Committee (FAC) conducted an exercise to arrive at an opinion on the funds of the organisation up to and beyond the end of 2023. Based on the information supplied and the modelling performed, the FAC reported to the Board that in their opinion the organisation was sufficiently resourced to operate on a going concern basis.
Structure, governance and management

We are a company limited by guarantee, governed by its Memorandum and Articles of Association.

Our purpose, as set out in our Articles of Association, is to advance education and literacy by:

- procuring and distributing reading and information materials to developing and other countries for educational purposes
- distributing these materials to public and community libraries, universities, colleges, schools, hospitals, youth and children’s centres and other charitable institutions according to local needs and priorities
- promoting and supporting any training or other activity which is designed to enhance the use of books, reading and other information material in developing countries.

The Board has considered the legislative and regulatory requirements for disclosing how its charitable objectives have provided benefit to the public and has complied with the duty set out in Section 17 of the Charities Act 2011. The strategic report on pages 4 – 25 outlines how our achievements during 2021 have benefited the public, either directly or indirectly.

Our Board of Trustees

The members of the charitable company are also the members of the Board, which consists of between five and 15 members. New members with specialist relevant skills and experience are appointed from time to time and their appointment is ratified at a meeting of the Board.

Members serve a three-year term, renewable for up to two further terms by re-election. New Trustees receive an induction and information pack and are reviewed biennially along with those of other staff and approved by the Remuneration Committee. The Board meets quarterly and reviews strategy, finances and the organisation’s charitable activities and approves matters reserved for the Board. These include issues relating to strategy and management, structure of the charity, financial controls, internal controls and risk management, contracts, communication, board membership, remuneration, delegation of authority, corporate governance, policies and any other matters of importance for the charity.

Two committees formed by the Board meet and report back regularly to the Trustees: the Finance and Audit Committee, which meets three times a year to review internal controls, the risk register, going concern assumptions and the annual accounts, budgets and audit findings and is chaired by the Honorary Treasurer; and the Remuneration Committee, which meets annually to approve salary recommendations and other human resources matters and is chaired by the Chair of Trustees.

Our Senior Management Team

Our Senior Management Team consists of the Chief Executive and Heads of Programmes, Fundraising, Finance, Communications and Operations and this team communicates regularly with the Board. The Trustees have delegated the day-to-day operations of the charity to this Senior Management Team, while reserving for itself ultimate decision-making on the matters listed above where deemed necessary.

Salaries for the Senior Management Team are reviewed biennially along with those of other staff and approved by the Remuneration Committee. The Chief Executive is currently the only staff member receiving a salary of between £150,000 and £200,000, with the Head of Finance being the only staff member receiving a salary between £60,000 and £70,000.

How we assess and manage risk

Our Trustees, led by the Risk Committee, formally assess risks annually using Charity Commission guidelines. Our position is regularly reviewed against this assessment and mitigating actions taken as necessary.

External risks to the charity in 2021 consisted primarily of the continuing impact of the pandemic on the organisation’s ability to deliver its projects and programmes in the context of ongoing disruption to libraries and schools in Africa. In late 2021 an increase in the risks posed by the political, economic and social structures of the countries and environments in which Book Aid International operates was identified, and the need for heightened due diligence processes agreed.

Areas of ongoing internal risk were identified as the reliance of Book Aid International for its model on donated books from the publishing industry, the need for an effective fundraising strategy to support Book Aid International’s growth plans, the charity’s dependence on a small number of large donors for its projects and programmes, and the limitations on capacity of the Cambewell site to support the expansion of the charity’s activities.

The Trustees are satisfied that measures have been put in place to mitigate external and internal risks to the charity as far as possible.

Protecting the environment

At Book Aid International we are committed to helping to build a more sustainable future for all.

Climate change and environmental degradation disproportionately impact people in poorer communities. These communities include many readers we support and we have a responsibility to them to reduce our environmental impact. To that end, we have been working to understand and reduce our carbon footprint.

Our environmental impact

We recognise that there are environmental costs to our work. We ship the books we provide by sea and overland around the world – a process which creates emissions. Wherever possible we use shipping companies which take steps to reduce carbon emissions for the books we send. By supporting a greener journey for the books we send, we can help to reduce our contribution to climate change.

We also keep our London office and warehouse as green as possible by working with utility suppliers that are committed to an environmentally sustainable approach to their business. In-house we raise awareness and have a code of practice which includes recycling, responsible use of resources and purchasing.

Our environmental benefit

While there is an environmental impact to our work, there is also a benefit. Our work creates environmental benefit in four ways.

Extending the life of books

There is a carbon cost to every book that is printed, and so it is vital that we get the longest life possible out of each book. Many of the books we receive would be recycled were we not able to extend their lives by donating them to our partners. By keeping them from being recycled, we reduce waste and the carbon used in the recycling process.

Quality education

We enrich classroom learning by providing books to existing school libraries, creating new school libraries and training teachers in how to use books to support classroom learning. This work improves the quality of education that children receive and, in the long-term, education enables people to make more informed life choices and creates awareness about environmental issues.

Awareness raising

We provide books in schools and libraries around the world about the climate crisis and the urgent need to protect the natural world. These range from picture books for the youngest readers through to university-level texts on sustainable farming practices for agriculture students. These books inform and raise awareness of the need for change at a global level and how, together, we can safeguard our shared future.

Conservation support

We also work with organisations that have environmental protection at the heart of their missions. In Malawi we are working with SolarAid to create Solar Libraries where families can borrow books and solar lights – reducing emissions from kerosene lamps and enriching education. In Zambia, we’re working directly with conservation NGO African Parks to support its work in schools improving the quality of education that children living around national parks receive and increasing their understanding of conservation.

We know that the time to act to protect our shared future is now, so in the months and years ahead we will continue to seek out opportunities to reduce our environmental footprint and deliver a direct environmental benefit.

Directors and members

The directors and members of the company are the Board members named on the preceding page.

Statement of responsibilities of the trustees

The trustees (who are also directors for the purposes of company law) are responsible for preparing the trustees’ annual report including the strategic report and the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the trustees to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the charitable company and of the incoming resources and application of resources, including the income and expenditure, of the charitable company for that period. In preparing these financial statements, the trustees are required to:

• select suitable accounting policies and then apply them consistently
• observe the methods and principles in the Charities SORP
• make judgements and estimates that are reasonable and prudent
• state whether applicable UK Accounting Standards and statements of recommended practice have been followed, subject to any material departures disclosed and explained in the financial statements
• prepare the financial statements on the going concern basis unless it is inappropriate to presume that the charity will continue in operation

The trustees are responsible for keeping adequate accounting records that disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the charitable company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the trustees are aware:

• there is no relevant audit information of which the charitable company’s auditor is unaware
• the trustees have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information

The trustees are responsible for the maintenance and integrity of the corporate and financial information included on the charitable company’s website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Members of the charity guarantee to contribute an amount not exceeding £1 to the assets of the charity in the event of winding up. The total number of such guarantees at 31st December 2021 was £8 (2020; £8). The trustees are members of the charity but this entitles them only to voting rights. The trustees have no beneficial interest in the charity.

Auditor

Sayer Vincent LLP was reappointed as the charitable company’s auditor during the year and has expressed its willingness to continue in that capacity.

The Trustees’ Annual Report which includes the strategic report has been approved by the trustees on 28 June and signed on their behalf by

Dr Alice Prochaska
Chair
Book Aid International

Nicholas Allen
Honorary Treasurer
Book Aid International
Independent auditor’s report

Opinion
We have audited the financial statements of Book Aid International (the ‘charitable company’) for the year ended 31st December 2021 which comprise the statement of financial activities, balance sheet, statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:
• give a true and fair view of the state of the charitable company’s affairs as at 31st December 2021 and of its incoming resources and application of resources, including its income and expenditure for the year then ended
• have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice
• have been prepared in accordance with the requirements of the Companies Act 2006

Basis for opinion
We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the financial statements section of our report. We are independent of the charitable company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC’s Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern
In auditing the financial statements, we have concluded that the trustees’ use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on Book Aid International’s ability to continue as a going concern for a period of at least 12 months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report.

Opinions on other matters prescribed by the Companies Act 2006
In our opinion, based on the work undertaken in the course of the audit:
› the information given in the trustees’ annual report, including the strategic report, for the financial year for which the financial statements are prepared is consistent with the financial statements; and
› the Trustees’ Annual Report, including the strategic report, has been prepared in accordance with applicable legal requirements

Matters on which we are required to report by exception
In the light of the knowledge and understanding of the charitable company and its environment obtained in the course of the audit, we have not identified material misstatements in the trustees’ annual report including the strategic report. We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:
› adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
› the financial statements are not in agreement with the accounting records and returns; or
› certain disclosures of trustees’ remuneration specified by law are not made; or
› we have not received all the information and explanations we require for our audit

Responsibilities of trustees
As explained more fully in the statement of trustees’ responsibilities set out in the trustees’ annual report, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charitable company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Auditor’s responsibilities for the audit of the financial statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud are set out below.
Capability of the audit in detecting irregularities

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud and non-compliance with laws and regulations, our procedures included the following:

- We enquired of management and the finance committee, which included obtaining and reviewing supporting documentation, concerning the charity’s policies and procedures relating to:
  - identifying, evaluating, and complying with laws and regulations and whether they were aware of any instances of non-compliance
  - detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected, or alleged fraud
  - the internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations

- We inspected the minutes of meetings of those charged with governance.

- We obtained an understanding of the legal and regulatory framework that the charity operates in, focusing on those laws and regulations that had a material effect on the financial statements or that had a fundamental effect on the operations of the charity from our professional and sector experience.

- We communicated applicable laws and regulations throughout the audit team and remained alert to any indications of non-compliance throughout the audit.

- We reviewed any reports made to regulators.

- We reviewed the financial statement disclosures and tested these to supporting documentation to assess compliance with applicable laws and regulations.

- We performed analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud.

- In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments, assessed whether the judgements made in making accounting estimates are indicative of a potential bias and tested significant transactions that are unusual or those outside the normal course of business.

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities is available on the Financial Reporting Council’s website at: www.frc.org.uk/auditorsresponsibilities.

This description forms part of our auditor’s report.

Use of our report

This report is made solely to the charitable company’s members as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the charitable company’s members those matters we are required to state in an auditor’s report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charitable company and the charitable company’s members as a body, for our audit work, for this report, or for the opinions we have formed.

The notes on pages 39 to 57 form part of these financial statements.

Notes to the financial statements
For the year ended 31 December 2021

1 Accounting policies

a) Statutory information
Book Aid International is a charitable company limited by guarantee and is incorporated in England and Wales. The registered office address is 39-41 Coldharbour Lane, Camberwell, London SE5 9NR.

b) Basis of preparation
The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) – (Charities SORP FRS 102), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Companies Act 2006.

Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy or note.

c) Public benefit entity
The charitable company meets the definition of a public benefit entity under FRS 102.

d) Going concern
The trustees consider that there are no material uncertainties about the charitable company’s ability to continue as a going concern.

Key judgements that the charitable company has made which have a significant effect on the accounts include the valuation of donated books as explained below. The trustees have reviewed the activities of the charity in light of Covid and have adjusted estimations for uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period. It is the view of the Trustees that the charity will continue to be a going concern for the current year up to and including 2023.

e) Income
Income is recognised when the charity has entitlement to the funds, any performance conditions attached to the income have been met, it is probable that the income will be received and that the amount can be measured reliably.

Income from grants, whether ‘capital’ grants or ‘revenue’ grants, is recognised when the charity has entitlement to the funds, any performance conditions attached to the grants have been met, it is probable that the income will be received and the amount can be measured reliably and is not deferred.

Entitlement to income from legacies is taken as the earlier of the date on which either: the charity is aware that probate has been granted, the estate has been finalised and notification has been made by the executor(s) to the charity that a distribution will be made, or when a distribution is received from the estate. Receipt of a legacy, in whole or in part, is only considered probable when the amount can be measured reliably and the charity has been notified of the executor’s intention to make a distribution.
f) Donated books

Donated books are valued at fair value on receipt. This is determined using Nielsen Bookscan for identifying published prices and then applying a 30% discount from the full RRP to allow for the estimated market discount for third-party commercial buyers. This discount rate is reviewed by an independent expert on an annual basis. Where at year-end books could not be opened and scanned into stock, an estimate of the value of these books is made in relation to the type and class of books remaining unopened.

Books held are recognised as expenditure at the point they are dispatched from the Book Aid International warehouse. Books in transit at the year-end are accounted for as expenses as it is deemed highly probable that they will reach their intended beneficiaries in good condition. Any material damage or loss of stock would be adjusted in the accounts in the following year. There was no damage or loss of stock in transit at year-end 31st December 2021 to be reflected in these accounts.

Donated books held at year-end are measured at their fair value using the same measure as explained above. Provision is made where necessary for obsolete, slow-moving and defective stock. Where books are not able to be opened and booked into stock by the finalisation of the accounts, the value of these is estimated using averaged price per class of book based on books received and recognised in the accounts.

g) Interest receivable

Interest on funds held on deposit is included when receivable and the amount can be measured reliably by the charity. This is normally upon notification of the interest paid or payable by the bank.

h) Fund accounting

Restricted funds are to be used for specific purposes as laid down by the donor. Expenditure which meets these criteria is charged to the fund.

Unrestricted funds are donations and other incoming resources received or generated for the charitable purposes.

Designated funds are unrestricted funds earmarked by the trustees for particular purposes.

i) Expenditure and irrecoverable VAT

Expenditure is recognised once there is a legal or constructive obligation to make a payment to a third party. It is probable that settlement will be required and the amount of the obligation can be measured reliably. Expenditure is classified under the following activity headings:

- Costs of raising funds relate to the costs incurred by the charitable company in inducing third parties to make voluntary contributions to it, as well as the cost of any activities with a fundraising purpose.
- Expenditure on charitable activities includes the costs of book provision and restricted projects and training undertaken to further the purposes of the charity and their associated support costs.
- Other expenditure represents those items not falling into any other heading.

Irrecoverable VAT is charged against book provision.

j) Grants payable

Grants payable are made to third parties in furtherance of the charity’s objects. Single or multi-year grants are accounted for when either the recipient has a reasonable expectation that they will receive a grant and the trustees have agreed to pay the grant without condition, or the recipient has a reasonable expectation that they will receive a grant and that any condition attaching to the grant is outside the control of the charity.

Provisions for grants are made when the intention to make a grant has been communicated to the recipient but there is uncertainty about either the timing of the grant or the amount of grant payable.

k) Allocation of support costs

Resources expended are allocated to the particular activity where the cost relates directly to that activity. However, the cost of overall direction and administration of each activity, comprising the salary and overhead costs of the central function, is apportioned based on staff time and book delivery attributable to each activity.

<td>60%</td>
<td>64%</td>
</tr>
<tr>
<td>Restricted projects and training</td>
<td>18%</td>
<td>16%</td>
</tr>
</tbody>
</table>

l) Operating leases

Rental charges are charged on a straight-line basis over the term of the lease.

m) Tangible fixed assets

Items of equipment are capitalised where the purchase price exceeds £1,000. Depreciation costs are allocated to activities on the basis of the use of the related assets in those activities. Assets are reviewed for impairment if circumstances indicate their carrying value may exceed their net realisable value and value in use.

Where fixed assets have been revalued, any excess between the revalued amount and the historic cost of the asset will be shown as a revaluation reserve in the balance sheet. The increase in the 2021 grants sent value is due to increased activity as a result of better than expected funding and release of unrestricted Book Aid International funds to support increased activity.

Depreciation is provided on a straight-line basis at rates calculated to write down the cost of each asset to its estimated residual value over its expected useful life. The depreciation rates in use are as follows:

<table>
<thead>
<tr>
<th>Asset</th>
<th>Rate</th>
<th>Rate</th>

n) Stocks

Donated books held at year-end are valued as explained in policy (f) above. Purchased books are measured at the lower of cost and net realisable value.

o) Debtors

Trade and other debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid net of any trade discounts due.

p) Short-term deposit investments

Short-term deposits include cash balances that are invested in accounts with a maturity date of between three and 12 months.

q) Cash at bank and in hand

Cash at bank and cash in hand includes cash and short-term highly liquid investments with a short maturity of three months or less from the date of acquisition or opening of the deposit or similar account.
r) Creditors and provisions
Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due.

s) Financial instruments
The charity only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at amortised cost using the effective interest method.

t) Pensions
The charity contributes to a pension scheme administered by the Pensions Trust, as an independent company. The pension cost charge indicated in note 8 represents the contributions payable to the fund for the year, and note 16 gives details of the movements during the year of the agreed deficit repayment plan liability, which has been included as a liability under the requirements of FRS 102.

u) Free reserves
The minimum level of free reserves confirmed by the Board of Trustees for 2021 was set at a range between £500,000 and £550,000.

12 Stock

2021 2020
Donated books £4,824,275 £8,090,153

At year-end there are unopened pallets of books stored in our warehouses. We endeavour to open as many of these as possible by the time the accounts are finalised. The value of any unopened pallets is estimated by using the average value of pallets for that class of book received and opened in the year. Included in the Closing stock value of £4,824,275 are 233 pallets of books (2020: 366) which could not be opened and booked into stock at year-end. These have been estimated using an averaged price per class of book and are valued at £2,324,732 (2020: £4,567,624). The reduced closing stock balance is due to the increased number of books sent to partners as well as a reduction of higher-value medical books received in the year.

13 Debtors

2021 2020
Trade debtors £1,411 £13,568
Other debtors and prepayments £75,152 £50,769
Accrued income £33,794 £31,888
Accrued income £199,128 £97,750
309,485 191,975

All of the charity’s financial instruments, both assets and liabilities, are measured at amortised cost.

14 Bank and short-term investments

Reduced figure for other creditor and accruals in 2021 is due to a change in way a donor funds for activity. Previously funds for the following years activity were received at the end of the prior year. Now funds will be given in tranches in the year of the activity.

16 Pension scheme

The company participates in the scheme, a multi-employer scheme which provides benefits to some 638 non-associated participating employers. The scheme is a defined benefit scheme in the UK. It is not possible for the company to obtain sufficient information to enable it to account for the scheme as a defined benefit scheme. Therefore it accounts for the scheme as a defined contribution scheme.

The scheme is subject to the funding legislation outlined in the Pensions Act 2004 which came into force on 30th December 2005. This, together with documents issued by the Pensions Regulator and Technical Actuarial Standards issued by the Financial Reporting Council, sets out the framework for funding defined benefit occupational pension schemes in the UK.

The scheme is classified as a ‘last-man standing arrangement’. Therefore, the company is potentially liable for other participating employers’ obligations if those employers are unable to meet their share of the scheme deficit following withdrawal from the scheme. Participating employers are legally required to meet their share of the scheme deficit on an annuity purchase basis on withdrawal from the scheme.

A full actuarial valuation for the scheme was carried out at 30th September 2020. This valuation showed assets of £800.3m, liabilities of £831.9m and a deficit of £31.6m.

To eliminate this funding shortfall, the Trustee has asked the participating employers to pay additional contributions to the scheme as follows:

From 1 April 2022 to 31 January 2025: £3,312,000 per annum (payable monthly)

Unless a concession has been agreed with the Trustee the term to 31 January 2025 applies.

Note that the scheme's previous valuation was carried out with an effective date of 30th September 2017. This valuation showed assets of £794.9m, liabilities of £926.4m and a deficit of £131.5m. To eliminate this funding shortfall, the Trustee has asked the participating employers to pay additional contributions to the scheme as follows:

Deficit Contribution

From 1st April 2019 to 30th September 2025: £11,243,000 per annum payable monthly and increasing by 3% each on 1st April.

The recovery plan contributions are allocated to each participating employer in line with their estimated share of the Series 1 and Series 2 scheme liabilities.

Where the scheme is in deficit and where the company has agreed to a deficit funding arrangement, the company recognises a liability for this obligation. The amount recognised is the net present value of the deficit reduction contributions payable under the agreement that relates to the deficit. The present value is calculated using the discount rate detailed in these disclosures. The unwinding of the discount rate is recognised as a finance cost.

</tr>
</tbody>
</table>

The discount rates shown above are the equivalent single discount rates which, when used to discount the future recovery plan contributions due, would give the same results as using a full AA corporate bond yield curve to discount the same recovery plan contributions.

The estimated contingent liability for the charity as at September 2020 in the event of withdrawal for the Growth Plan was £498,600 (less the £45,786 provided above). There is no intention at present to cease participation or to wind up the Growth Plan.

Projects with negative balances

Funding for these projects is expected in 2022 with applications for funders already sent or being sent in 2022. Failure to receive this funding will result in the projects being funded from unrestricted funds.

2021 transfers between funds

There were no transfers between Restricted and Unrestricted funds in 2021:

* Any transfers are treated within parameters allowed by funders, and any external excess funding transferred to other projects or unrestricted funds will always be agreed with funders.

Purposes of designated funds

The total designated funds increased from £328,015 to £603,015 by a net £275,000 increase as at 31/12/2021 made up of the following:

- At the 16/12/2021 Board meeting the Trustees confirmed £53,000 of designated funds to test a range of options to acquire new regular supporters through digital fundraising activities. The designated fund will be spent in 2022 after which digital donor acquisition will become part of the charity’s regular investment in fundraising.
- At the same meeting the Board approved a further £55,000 and at the March 2022 meeting a further £250,000 for the costs associated with planning and delivering options to increase warehouse capacity, thus enabling the charity to increase its operational reach through storing, processing and sending more books. Costs associated with the total designation of £500,000 (£195,000 having been designated in prior years) include consultancy, agency, professional fees and equipment and rental costs.
- At the same meeting the Trustees approved a £50,000 designated fund to develop required projects where funding may not have been raised or raised in total, this includes match-funding initiatives, or projects Book Aid International deem beneficial where funding may be needed to top up the project or get it off the ground.

- 8,910,538

**Total unrestricted funds (less stock)**

- 2,190,502

**Total funds including pension fund (less stock)**

- 2,604,111

Unrestricted income funds are available for use at the discretion of the trustees in furtherance of the charity’s objectives. Unrestricted funds include designated funds, fixed assets and revaluation reserves representing the excess of the net book value of the property at acquisition. The remainder of the unrestricted funds are the charities free reserves.

**2020 Transfers between funds**

The total £1,000 net transfers between Restricted and Unrestricted funds is made up of the following:

Uganda Gilead medical books project was funded through unrestricted funds until sourced funding was received in 2019. The excess funding of £1,000 has been returned to unrestricted funds.

**Designated funds** are unrestricted funds ‘earmarked’ by the trustees for use against specific future activities and commitments.

**Restricted income funds** are subject to specific restrictions imposed by donors or by the purpose of an appeal. Details of all restricted funds held are in note 19a above.

**20 Operating lease commitments**

The charity’s total future minimum lease payments under non-cancellable operating leases is as follows for each of the following periods.
